

# **Budget preparation for a successful grant application**

#### Preliminary Information day Sofia, Bulgaria, 18/12/2008

MARGETIDIS Georgios <u>Georgios.margetidis@ec.europa.eu</u> Scientific Project Officer Health information strand Executive Agency Health Consumers <u>http://ec.europa.eu/eahc/index.htm</u>

### The financial part of the grant

- Gives an overall view of the resources (expenditure & income) invested in the project which are balanced by partner
- Shows a detailed view of expenses by beneficiary
- Provides a breakdown of expenditure & income <u>by beneficiary</u>
- Must be coherent with ANNEX I (technical annex)

Constrainty public reflection         Fails         Fails         Pails reflection         Description         Pails reflection         Constrainty         Pails reflection         Constrainty         C	1. Staff

# What is a public official ?

➤They are paid directly from central government or regional or local government budgets.

The entity (for which the public official is working) runs under public law

#### How to calculate daily rates?

Divide the yearly staff costs by the number of yearly productive days

Yearly staff costs = the real gross pay of the employee (including the social security costs paid by the employer, the pension charge paid by the employer and any other verifiable cost of social allowance granted by the employer

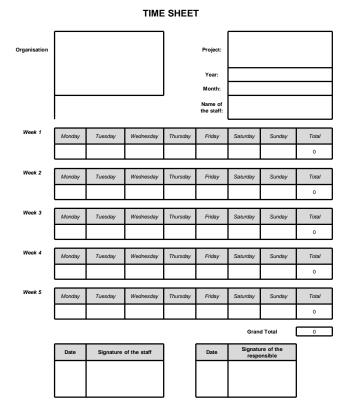

Productive Days = Total days per year

minus total number of weekend days over the year
minus total number of holidays allowed in the organisation
minus total number of public holidays in the year
minus days spent dealing with non productive tasks (training)
minus days corresponding to a usual absenteeism rate in the organisation

Max. 220 days/year

# Staff costs - time recording

Instructions: To fill in from the first day of the month

The value to fill in per day is a proportion of a full day work starting from 0 to maximum 1(ex: 0.2 for one fifth of a day work. If you work 7.5 hours a day on average, this 0.2 proportion represents 1.5 hour.)

Recording of the time spent in the project is a contractual provision (Annex III of the grant agreement)

This template is independent of your own register

It provides harmonisation between organisations when declaring time spent

Record the time spent in the project by each employee on the payroll

Sign at the end of each month

Keep them until they are specifically requested for verification

#### **Travels & subsistence**

- Only for declared staff
- Conditions provided in Annex IV

- Departures from HQ
- Linked to a specific action
- Cheapest solution

### **Travels & subsistence**

- 1. Daily rate is <u>calculated for the staff undertaking travels E2a</u>.
- 2. Covers hotel, meals, restaurants and any local transport on mission (The daily rate correspond to the sum of the daily allowance and the maximum hotel price set out in the Council Decision)
- 3. Applies in respect of each day of a mission for a <u>minimum</u> distance of 100 km from the HQ.
- 4. The subsistence allowance varies depending on the country in which the mission is carried out. The daily rates to match with the <u>sum</u> of the daily allowance and the maximum hotel price set out in Council Decision 1066/2006 dated 27/06/2006.
- Missions in countries other than EU 27, Acceding and Applicant countries and EFTA-EEA countries shall be subject to the prior agreement of EAHC. This agreement shall be related to the objectives of the mission, its costs and the reasons therefore.

# Travels & subsistence - remarks

You might think that a state as Switzerland, because in the heart of the European continent, is part of the Union. Wrong! Prior written approval of EAHC to be requested.

Social events: gala dinners (different from normal meals and sandwiches used during a whole day meeting), outside visits, excursions or cultural trips are not considered as costs necessary for the project !

## Equipment

Describe the elements you need to use (ex. PC) and provide a breakdown by element (2 PC's at 950 €/unit). Remember: it has to concern equipment specifically used for the action!

E3. Equipm	ent			
Partner reference	Description			Cost
02 - RKI - DE	2 PC's (950 €/unit)			950*2
02 - RKI - DE	-			0,00
	S	ub-Total Equipment	0	1 900,00

When declaring costs, the amount claimed should correspond to the <u>depreciation cost</u>. Also, only the actual share of time the equipment is specifically used for the project may be charged.

# **Consumables & supplies**

Consumables usually relate to the purchase, fabrication, repair or use of any materials or goods which:

- are not placed in your inventory of durable equipment;
- are not treated as capital expenditure in accordance with your accounting conventions and policies.
- have a short life expectancy, certainly not greater than the duration of the work under the grant agreement;

E4. Consumables and supplies directly linked to the project				
Partner reference	e Description	Cost		
02 - RKI - DE	Eggs for WP 6 (500 units at 0,25 eur/unit)	=500*0,25		
02 - RKI - DE	CD Rom for WP 7 (500 units at 0,25 eur/unit	=500*0,25		
	Sub-Total Consumables & Supplies	0 250,00		

Write the description and nature of the elements you need to buy (ex. eggs) and provide a breakdown by element (500 units at 0,25 €/unit).

Avoid "offices supplies" as normally these are part of OH.

Procurement consists of the payment of a market price for goods or services rendered. <u>Limited</u> to specific support actions. <u>Identified & justified in Annex I and II</u>.

#### Rules for procurement for beneficiaries

 $\leq \in 60\ 000$ : NO application of detailed procedures => only principles of the FR (you shall award the contract to the "best value for money" bid amongst offers & avoid conflict of interest)

► € 60 000: EAHC may require detailed procedures as laid down in the FR

If the task can be carried out by the beneficiaries or it is part of their obligations, the subcontract will be refused.

#### **Subcontract**

- Fees, travels, other related expenditure
- Detailed Invoice with reference to the project

## **Other costs**

directly linked to the project (ex. Rental rooms for conferences/meetings)

**specific costs identifiable and directly connected to the performance of the action that cannot be booked under any of the other direct cost items** 

travel costs and subsistence allowances paid to invited experts

costs for issuing a requested bank guarantee

costs for a requested audit report

# **OVERHEADS**

LIMITED TO 7% calculated on the total eligible costs

Overheads are all the structural and support costs of an administrative, technical and logistical nature which are cross-cutting for the operation of the beneficiary body's various activities and cannot therefore be booked in full to the action

- stationery, office furniture
- photocopying, mailing postage, telephone and fax costs,
- heating, electricity or other forms of energy, water, insurance and any other expenditure necessary for the successful completion of the project

## Incomes other than EU funds & own contribution

## **Rece**ipts for the project:

1) Financial transfers from donors if the donor has provided it to a project beneficiary to be used specifically for the project

2) Income generated by the project admission fee to a conference; sale of the proceedings of such a conference; sale of equipment bought for the project, etc

# The requested audit report in the final costs declaration

Professional status of auditor on accounts => all regulated by national law

The auditor is to be listed in the registers held by Member States of auditors approved by them to carry out statutory audits of accounting documents (Public organizations may use their accountant officer, as an exception)

The audit report complies with the standards and it's conforming to the 84/253/EC Directive of 10/04/1984 (the 8<sup>th</sup> Directive)
